SAFETY MESSAGE PLEASE READ BEFORE PARTICIPATING

The 2026 Eldorado Billfish Classic has been arranged for 3 days and it is the skipper's responsibility to determine that on any one day, the sea conditions and weather forecasts are safe for his/her boat to put to sea. It is the skipper's responsibility to ensure that the boat they intend to participate in is capable of putting to sea and meeting local coastguard and all Club requirements. Participation in the BOISC hosted tournament does not diminish each skipper's sole responsibility under maritime law nor shift any of the responsibility to the Club even if the event officials make the decision on the conditions for that day.

GENERAL BOISC FISHING RULES

These rules form the backdrop of the 2026 Eldorado Billfish Classic Tournament Rules. The Club has an obligation to recognise the skills and achievements of its members primarily in the practice of angling. One method of recognition is granting awards and trophies at the annual prize giving and the awarding of pins, patches, certificates and other prizes during the season.

The Club believes that the nature of and the reason for awards must be to recognise abilities and accomplishments that bring credit not only to the members but also to the Club, it is further believed that it will be beneficial to the health and wellbeing of the Club, when awards are within reach of the member.

There are some aspects of angling that cannot be controlled through rule making. Angling regulations cannot ensure an outstanding performance from each fish; records cannot indicate each of the members.

The amount of difficulty in catching the fish. Captures in which the fish has not fought or has not had a chance to fight do not reflect on the person fishing and only the angler can properly evaluate the degree of achievement in establishing the catch. Only fish caught in accordance with IGFA angling rules and within the intent of these rules can be considered for world records.
